

Ed Tech Update

From the ISD Educational Technology Department

Volume 4, Issue 3
November 21, 2014

How do I get Tech Per Diem Hours?

There are a variety of ways that certificated staff can access their 6 hours of Tech Per Diem hours:

- Attend a face-to-face class offered by the Ed. Tech. Department.
- Watch [Atomic Learning](#) tutorials.
- Attend a training provided by someone in your building. Those interested in providing tech training to your staff will need to submit a [Content or Assignment Tech PD Request Form](#) prior to the training for approval.
- Attend training or get individual help from your school's Webmaster.
- Attend training or get individual help from your School Assessment Specialist.
- Attend training or get individual help from your Skyward Building Trainer.

** All trainings and/or individual help must take place outside of your contracted day.*

Questions?

Have questions about integrating technology with your students?

Please contact [Natalie Boyle](#), [Carrie Reckling](#), or [Josh Moore](#)

This is the 3rd 2014-15 edition of the Ed Tech Update, brought to you by the Ed Tech Department, and is provided to give you an update on classes, software tips, resources, and other important information. More information can also be found on the Ed Tech Connect site: [click here to access](#).

Issaquah Technology Project (ITP) 2014-2015

Have you started your ITP application yet? ITP has been reconfigured once again to meet the continual changes in classroom technology. This year there will be one elementary session and one secondary session, to allow us to provide more technology for each participant. Sessions are offered for teachers who have either never attended ITP or have not attended **since summer 2011**. **All teachers must complete an application even if they have attended ITP previously.**

ISSAQUAH
TECHNOLOGY
PROJECT

One important difference this year, is that the entire application process is online. For more information and to see the application, please visit the [ITP Application](#) site on the Connect Intranet under Educational Technology.

The Participant Application Form and the Administrator Referral Form must be submitted (through the ITP Application site) on or before **4:30 p.m. January 9th, 2015**.

Please email itpmail@issaquah.wednet.edu for questions regarding ITP or the application process.

Atomic Learning: Featured Tutorial

Google Mobile Apps Training

Have an iPad? Ever tried to use Google Drive with it? Google has released a family of mobile apps that make it easier for you to find, edit and create documents, spreadsheets, and presentations on the go. Click on the picture to the left to log in and view the tutorials.

About Atomic Learning

Both certificated and classified staff may receive compensation for utilizing Atomic Learning outside of the contracted day. Tutorials for compensation must align with the staff member's individual job responsibilities--the technology must be used in your position. Compensation directions have changed for the 2014-2015 school year. View the [Atomic Learning Information site](#) to learn more.
